No, Dad. You can't talk on your cell phone while driving.

Using a mobile phone while driving distracts us and makes it harder for the driver to see the road.

A driver talking on the phone notices things late and reacts slowly, which increases the risk of an accident.

We protect ourselves by wearing seat belts, but the driver must also stay focused.

If your parents are talking on the phone while driving, warn them politely: "Please put the phone down, it's not safe."
