"Knock, knock! It's playtime—are our helmets and vests ready?"

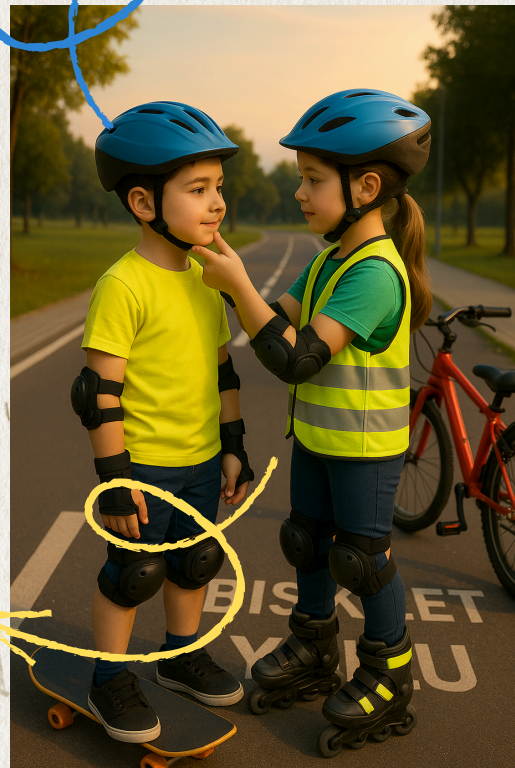

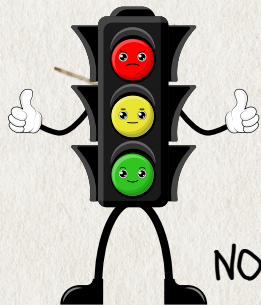

Put your helmet on before getting on your skateboard—mine is a spare, you can take it if you want!

I feel much safer this way.

We are skating together on the BICYCLE PATH: helmet, knee pads, elbow pads—full protection!

MY SAFE ROAD COMPANION

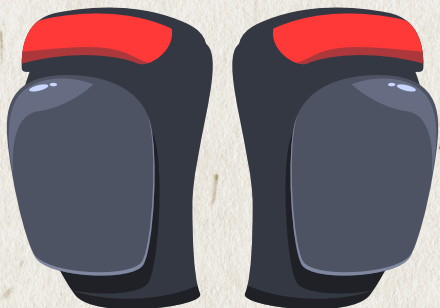

ROADSAFETYCULTURES

It protects your head from impacts; fasten the chin strap so that it is snug but comfortable.

It cushions your elbows against impacts and scrapes during falls; adjust the straps firmly so they don't slip.

It protects your kneecaps and gives you confidence while skating; wear them so they fully cover both legs.

It ensures you are visible to vehicles and pedestrians from a distance; be sure to use it at sunset and at night.
