

# ROAD SAFETY

## STORMY-WINDY WEATHER

### Basic Wind Forces

### Risks and Obstacles

**SWERVING RISK:**  
Sudden wind gusts at high speeds can push the vehicle out of its lane.

**VISUAL OBSTACLE:**  
Wind-borne dust or debris can suddenly reduce visibility.

### Heavy Vehicle Special Case (Sail Effect)

**ROLLOVER (BLOW-OVER):**  
Empty trailers risk blowing over at winds above 70-80 km/h.

**JACKKNIFING:**  
Wind can push the trailer, causing loss of control.
