We have a long way to go. Please tell me if you feel sleepy.

Oh no! Sleepy Alert!

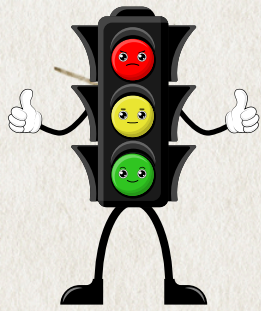

Dad! It is hard to focus when you are tired. Taking a break is safe.

You are right honey. I should rest for a bit.

ROADSAFETYCULTURES

What do you think Dad should have done?

Take a break when tired.

Drive only when well rested.

Do not keep driving if you are sleepy.

Remember that safety comes first.
